Education

Western Governors University

July 2026

Bachelor of Science (BS) | Software Engineering

- Recipient of four **WGU Excellence Awards** for exceptional work in Systems Thinking, Writing Composition, and Technical Communication
- **Capstone (CampaignKeep)**: full-stack D&D campaign management app (Spring Boot, Vue3, PostgreSQL) with JWT-secured REST API, RBAC, and an external API integration. Deployed to Railway/Netlify with a managed Postgres instance.
 - o **Live**: <https://campaignkeep.kdnth.xyz>
 - o **Source**: <https://github.com/kdnth/CampaignKeep-WGU-SWE-Capstone->

Certifications

WGU Certificate: Front End Developer

Jan 2026

AWS Certified Cloud Practitioner

March 2026

CompTIA Project+

April 2026

ITIL V4 Foundation

May 2026

Experience

Software Engineering AI Trainer

Dec 2023 - Present

DataAnnotation Tech | Remote

- Review AI-generated code across Python, Java, and TypeScript to identify failure patterns such as symptomatic fixes, scope creep, hallucinations, and instruction following, verification, or code quality failures.
- Develop evaluation rubrics for LLM outputs to distinguish surface-level correctness from structural accuracy.
- Conduct A/B/C testing on frontier CLI agents (Claude Code, Codex, and Gemini CLI) ability to complete complex coding tasks involving feature development, dependency migration, improving test coverage, refactoring monoliths, and writing automation build and testing scripts for large codebases.
- Contributed to datasets used in Meta + SurgeAI paper, *AdvancedIF: Rubric-Based Benchmarking and Reinforcement Learning for Advancing LLM Instruction Following*, including prompt and rubric development for multi-turn and constraint-heavy evaluation tasks.
- Selected as a top-performing contributor and invited to apply for an internal project administration role

Warehouse Associate

Jun 2023 – April 2024

Corps Design | Mansfield, TX

- Supported production of field equipment in a small-team environment
- Represented the company at conventions, interacting with customers and assisting with sales
- Created promotional video content for web and social platforms

Instructor/Band Director

Aug 2021 - Apr 2023

School of Rock | Cary, NC

- Taught music theory and performance across multiple instruments to students of varying skill levels
- Organized rehearsals and structured weekly practice plans

Skills

Languages: Java, Python, TypeScript, SQL

Frameworks/Libraries: Spring Boot, Spring Security, Vue 3, Pinia

Tools & Platforms: PostgreSQL, Git, Docker, Railway, Netlify, AWS, Linux

Other: Agentic AI Evaluation, Technical Writing, Project Management
